

1. PURPOSE

The purpose of this plan is to prescribe those activities to be taken by municipal government and other community officials to protect the lives and property of the citizens in the event of a natural, technological or terrorism emergency or disaster and to satisfy the requirements of the Pennsylvania Emergency Management Services Code, (35 Pa. C.S. Section 7101 et seq.), as amended, to have a disaster emergency management plan for the municipality.

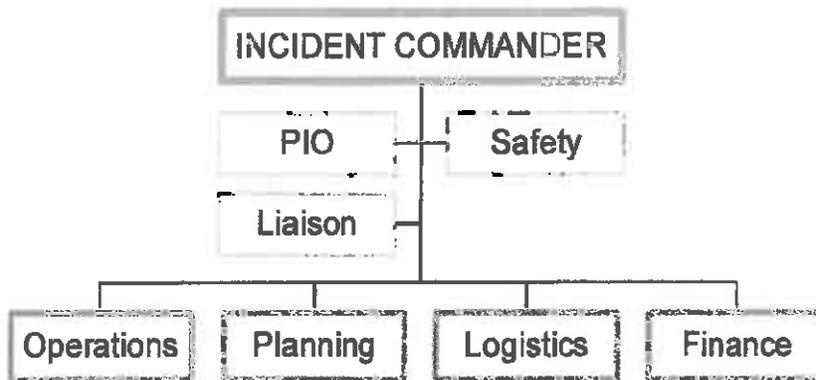

2. SITUATION AND ASSUMPTIONS

- A. The community is subject to a variety of hazards. According to the county Hazard Vulnerability Analysis, the most likely and damaging of these are identified in accompanying documents.
- B. Historically, certain areas and populations are more vulnerable to the effects of these hazards. These are also included in accompanying documents and have been further identified by Allegheny County and the North Hills Council of Governments.
- C. Training, response checklists and other accompanying documents are based on the statements in 2A. & B. of this plan.
- D. Adjacent municipalities and other governments will render assistance in accordance with the provisions of intergovernmental and mutual aid support agreements in place at the time of the emergency.
- E. When municipal resources are overwhelmed, the Allegheny County Emergency Management Agency is available to coordinate assistance and help satisfy unmet needs. Similarly, if the county requires additional assistance, it can call on mutual aid from adjacent counties, its counter terrorism task force, or from the Commonwealth of Pennsylvania. Ultimately, the Commonwealth can ask the federal government for assistance in dealing with a major disaster or emergency.

3. CONCEPT OF OPERATIONS/CONTINUITY OF GOVERNMENT

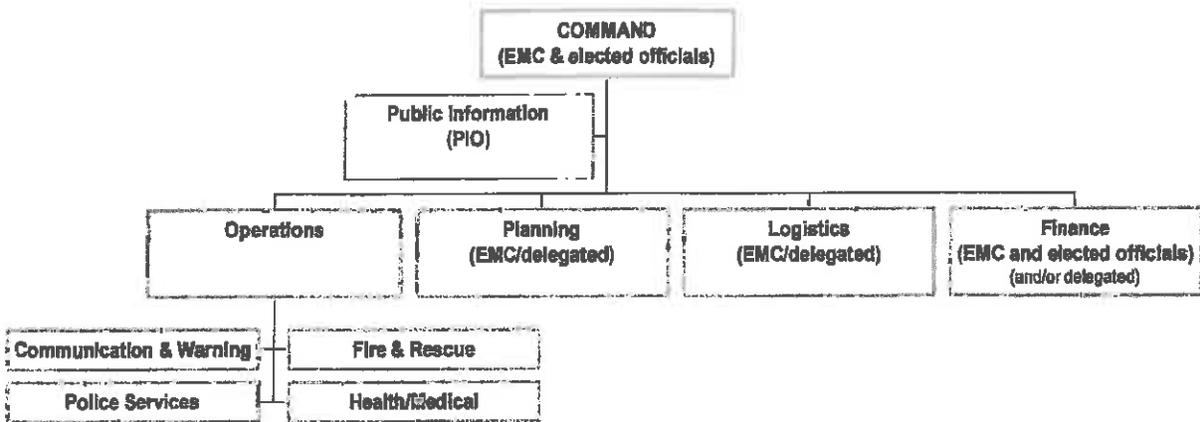

- A. The Town of McCandless Town Council is responsible for the protection of the lives and property of the citizens. It exercises primary supervision and control over the four phases of emergency management (mitigation, preparedness, response and recovery) and activities within the municipality.
- B. A municipal Emergency Management Coordinator for the Town of McCandless is appointed by the Governor and shall act on behalf of the elected officials. An Emergency Operations Center has been designated by the municipality, and may be activated by the Emergency management Coordinator or elected officials during an emergency.

- C. This plan embraces an "all-hazards" principle: that most emergency response functions are similar, regardless of the hazard. The Emergency Management Coordinator will mobilize resources and personnel as required by the emergency situation.
- D. The Emergency Management Coordinator and elected officials will develop mutual aid agreements with adjacent municipalities for reciprocal emergency assistance as needed.
- E. Whenever possible, emergency response by the municipal government will follow the Incident Management System delineated below.

1. The Incident Commander at the incident site will be from fire, police, or emergency medical services, dependent upon the nature of the incident.
2. The Incident Commander should have:
 - a) a manageable span of control (3 to 7 staff; optimum is 5);
 - b) personal accountability (each person reports to only one person in the chain of command); and
 - c) functional positions staffed only when needed (responsibilities for any positions that are not staffed remain with the Incident Commander).

When the municipal Emergency Operations Center is activated, the Emergency Management Coordinator or designee will coordinate between the Incident Commander and the county Emergency Management Agency. Whenever possible, and to ensure consistency with operations at the incident site, the Emergency Operations Center will also follow an incident command structure. The Emergency Management Coordinator will assume the role of Command and, initially, all of the remaining roles. As additional staff arrives at the Emergency Operations Center, the Emergency Management Coordinator may delegate activities to them. Suggested Emergency Operations Center configuration is:

F. Continuity of government procedures are specified in the Elected Officials checklist.

G. When the Emergency Management Coordinator receives notice of a potential emergency from the federal Homeland Security Advisory System or from National Weather Service watches and warnings, partial activation of the Emergency Operations Center in preparation for the emergency will be considered.
